Carron Farms supplies us with carrots and beets.

They were established in 1934 when the Verkaik family purchased a parcel of land on the west side of the Holland Marsh.

“We continually monitor our produce as it is growing using both the knowledge passed down from past generations along with modern technology to ensure the quality of your food and the sustainability of our farmland.” - Carron Farms

Magalas supplies us with eggplant and zucchini (both green and yellow).

Magalas Farms is operated by the Magalas family. They slowly expanded and with a new generation in the 1980s, created a large farm that would sell its produce at the Ontario Food terminal.

In 1994 Martin and his wife Cheryl solely took over Magalas Produce LTD, and expanded the fresh fruit and vegetable production to include strawberries, zucchini, melon (cantaloupe), sweet corn, tomatoes and roma tomatoes.

Nightingale supplies us with green beans, eggplant, red pepper and zucchini (both yellow and green)

They were established in 1950 by Frank J. Nightingale and remain a family company.

Nightingale sells both conventional and organic produce at the Ontario Food terminal.

Nightingale Farms has grown from a small family farm to the vast 1,500 acres from which now grows, packs and ships over 35 million pounds of fresh produce annually.
